I. Rules:
Rules in music time should be simple. You might consider the following format:

In music time we are:

- Good Musicians: We always sing, play, and move our best.
- Safe: We are safe with our bodies and instruments.
- Thoughtful: We are kind to our classmates and the teacher.

II. Finding Head Voice/ Singing Voice:
Somewhere in life people develop an irrational saying of, “I can’t sing.”
There are actually very few people who can’t sing. Those people have physical ailments that prevent them from producing a tone that is a singing tone.
Everyone has a singing voice, it is simply a matter of finding it! The playground taunt, “neh ney, neh ney, boo boo,” or “you can’t catch me” in that sing-song voice is a first step and an example of early childhood singing.

Steps to finding the singing voice with children:

- Echo Sing animal sounds like owls and cows. Owls say “ooh” and cows sing “moo.”
- Imitate siren sounds on “whoop.”
- Dramatize Halloween Sounds on “whoop.”
- Imitate a child. This is called peer singing. Many times children find it easier to imitate a child who is producing a pleasant tone rather than the teacher.
- Put a voice on an “elevator” and take your voice to different floors from low to high and high to low.
- Make a visual of a curvy line (like a roller coaster) and have the children sing the path.
- Sing, sing, sing! Don’t be afraid to sing! Participation is the MOST important element at this level.
III. The Difference Between Steady Beat and Rhythm:

Steady Beat is the even, recurring pulse that you can tap your toe to, or clap your hands with, or march to in music. The beat is like a heart beat. It is always present and it is even throughout a song, chant, poem, or rhyme.

Rhythm is a series of sounds and silences performed over a beat. It translates best for children using this phrase: “The rhythm matches the words.” Teachers best understand it using this phrase: “The rhythm matches the syllables.”

Consider the following example: The rhythm can be clapped (cl), the beat can be pat (p).

```
cl cl cl cl cl cl cl
Rhythm: Engine, engine, number 9
p p p p p p
Beat: Heart Beat Heart Beat
```

Remember: The beat stays the same, no matter what the words!

IV. Establishing a Steady Beat:

Steady Beat is a musical element that can and should be practiced all of the time. Students can pat, clap, march, walk, jump, hop, shake, twist, well anything with the beat. Some teachers find it helpful for students to speak the words “heart beat” as a song, rhyme, poem, or chant is played.

Passing games are a very good way for students to practice the musical element of steady beat. The best way to prepare the class for a passing game is to look at the clock and mimic the second hand. “tick tock like-a clock.” This takes some time but eventually students will work together and find the steady beat.

V. Ways to Practice Music Elements Using Common Nursery Rhymes, Poems, and Chants:

- Pat (tap, march, snap, etc.) the beat
- Clap the words (rhythm)
- Divide the class and have half pat the beat and half clap the rhythm (words)
- Walk or march the beat while clapping the rhythm (words)
- Divide class, have half march the beat and half clap the words.
  Practice, practice, practice!

VI. How to Teach a Song by Rote:

1. Listening: Ask the class questions about the song so that they listen each time the teacher sings the song. Listening = hearing + paying attention.
Students need to know what to “pay attention” to. The song should be sung several times to that the students hear it more than once or twice before singing.

2. Motions: Let the students imitate the teacher’s motions while the teacher sings the song.
3. Games: Many simple songs have games that go with them. The teacher may sing the song while the students play the game. As the children play the game they will start singing the song.
4. Echo Singing: The teacher can teach the song phrase by phrase. The teacher sings one phrase (musical sentence) and the class sings it back. Follow this procedure until the song is learned. Start combining phrases to make it more difficult until the children can sing the entire song.
5. Story: Make up a story that goes along to the song you want to teach.
6. Play: Teach the song by acting out the story of the song.

VII. Music Games:
Music is FUN! Students love to play games and have fun with music. It’s part of the art of music. Here is a list of easy games to play with a class.

1. Freeze Dance: Teacher plays a recording of a song while students dance. When the teacher hits “pause” the students must “freeze.” The last student moving is “out” and the game continues until there is one student left.
2. “Who has the Penny?” Students cover and close their eyes and leave a hand out, palm up. The teacher walks around the room and places a penny in one child’s hand. The teacher sings, “Who has the penny?” The student with the penny (and ONLY the student with the penny) sings, “I do,” The class tries to determine who has the penny without looking.
3. “Doggie, Doggie, Where’s your bone?” One student comes to the front of the room, in a chair, their back faces the class. A “bone” is placed under the chair. Students sing/chant “Doggie, Doggie, Where’s your bone? Someone took it from your home? Who has the bone?” While the class sings, the teacher selects a student from the class to go get the bone. The “doggie” sings, “Who has the bone?” and the child with the bone sings, “I do!” The doggie must guess who has the bone. The game continues until all children have had a turn.

VI. **Lesson Procedures**

**Materials/Set-up:** For variation, rhythm sticks or other rhythm instruments

**Session I:**

1. The teacher will ask the students to listen to the recording (or teacher will sing) for the answers to the following questions.
Primary Paths to the Arts
1st Grade - Lesson 12
Music Instructional Resource Guide

• First listening: focus on setting: What animal is this song about? Where is this animal sitting?
• Second listening: focus on actions: What is the animal doing? Where is the animal going? Why did the animal go?

2. The teacher will ask student to echo the song along with CD or teacher.
3. The students will sing the song (as a class with or without the CD).
4. The teacher will ask students to find the STEADY BEAT. The steady beat is the even, recurring pulse that you can tap your toe to, or clap your hands with, or march to in music. The beat is like a heart beat.
5. The teacher will remind students that the beat stays the same throughout the entire song like a heart beat.
6. The teacher will replay the song and ask the students to whisper “heart beat” and pat their laps with the beat throughout the song (patting with the syllable).
   • “Heart beat, heart beat, heart beat, etc.
   • Pat pat pat pat pat pat
7. The teacher will give the students opportunities to practice patting the beat and singing the song.
8. The teacher will then tell the students to clap the words (syllables) of the song.
9. The teacher will tell the student that the words represent the RHYTHM. Rhythm is a series of sounds and silences performed over a beat. It translates best for children using this phrase: “The rhythm matches the words.” Teachers best understand it using this phrase: “The rhythm matches the syllables.”
10. The teacher will provide the students opportunities to practice clapping the rhythm of the song.
11. The teacher will discuss the difference between beat and rhythm (heart beat, and the words). The teacher will reinforce that the beat stays the same no matter what the words are.
12. The students will perform the song for the teacher as a class demonstrating beat and then demonstrating rhythm.

Variation:
• The teacher will divide the class into two groups. One group pats the beat while the other group claps the rhythm. Students can sing along as their confidence increases.
• The teacher will add rhythm instruments and/or movements for the “Yum, yum,” and the “glub, glub.”

  CCSS.ELA-Literacy.RF.1.3d Use knowledge that every syllable must have a vowel sound to determine the number of syllables in a printed word.

VI. **Lesson Procedures**

**Session I:**

1. Teacher will display a chart that looks like a staircase with five steps.

   [Diagram of staircase with five steps]

2. The teacher will ask the students to listen to the recording (or listen to the teacher sing) to the song “When You Send a Valentine.” The teacher will then ask the students to listen for when the song sounds like it’s going up and down the staircase. Up and down would refer to the **pitch** of the music. High and low means how high your voice can go or how low your voice can go. In music, we call this **pitch**.

   Lyrics: When you send a valentine, that’s the time for fun!
   Put it underneath the door, ring the bell and run
   Run, run, run, ring the bell and run!
3. Using guided listening, the teacher will help the students discover that the song melody (the tune) has a pattern. The song “steps down the stairs” when the lyrics say, “That’s the time for fun!” “Ring the bell and run,” and again for the last “ring the bell and run!”

4. The teacher will play or sing the song asking the students when the lyrics sound like they are going “up the stairs.”

5. The students will notice that the melody goes “up” for the words, run, run, run.

6. The teacher and students will sing the song a few times to practice making their voices go “up” and “down” the “stairs” until they are all comfortable with the song.

7. Game: (The teacher needs to have a little paper valentine)
   - The teacher will ask the students to sit in the circle.
   - The teacher will ask the students to make a “mailbox” with their hands behind their back.
   - The teacher will walk around the circle (a la duck duck goose) with the beat while the students and teacher sing the song. The teacher is acting as a “mailman.”
   - The teacher will put the valentine in a student’s “mailbox” for whomever they stop at on the word “door.”
   - The teacher will “ring the bell” by tapping on the student’s shoulder and then the student will chase the teacher (safely with a tip-toe “running”) around until the teacher reaches the student’s old seat.
   - The game continues with the student becoming the new “mailman.”

Helpful hints: This is not an “out” game. If a student is caught it doesn’t matter, always allow the next student to take the turn. Insist on a safe “fast walk,” and insist on singing while playing the game. To keep track of who has had a turn, it is fun to chant the following: “If you have had a turn then you pat your lap, if you haven’t had a turn put your hands behind your back” between each turn.

Variation:
- The teacher will take the students out to practice the song on an actual staircase. The students in small groups, will sing the song as they go up and down the stairs with the lyrics.

You put your whole self in, You put your whole self out;
You put your whole self in, And you shake it all about.
You do the Hokey-Pokey, and you turn yourself around.
    That's what it's all about!

It's Raining, It's Pouring
It's raining, it's pouring;
    the old man is snoring.
    Bumped his head
    and he went to bed
and he couldn't get up in the morning.
    Rain, rain, go away;
    Come again another day;
Little Johnny wants to play.

Jack and Jill
Jack and Jill went up the hill
To fetch a pail of water.
Jack fell down and broke his crown
And Jill came tumbling after.
    Up Jack got and home did trot
    As fast as he could caper
Went to bed and plastered his head
With vinegar and brown paper.

Eencey Weencey Spider
Eencey Weencey spider
Climbed up the water spout;
    Down came the rain
And washed poor Eencey out;
    Out came the sun
And dried up all the rain;
And the Eencey Weencey spider
Climbed up the spout again.
London Bridge

London Bridge is falling down, falling down, falling down.  
London Bridge is falling down, my fair lady.  
Take a key and lock her up, Lock her up, Lock her up.  
Take a key and lock her up, my fair lady.  
How will we build it up, Build it up, Build it up?  
How will we build it up, my fair lady?  
Build it up with silver and gold, Silver and gold, Silver and gold.  
Build it up with silver and gold, my fair lady.  
Gold and silver I have none, I have none, I have none.  
Gold and silver I have none, my fair lady.  
Build it up with needles and pins, Needles and pins, Needles and pins.  
Build it up with needles and pins, my fair lady.  
Pins and needles bend and break Bend and break, Bend and break.  
Pins and needles bend and break, my fair lady.  
Build it up with wood and clay, Wood and clay, Wood and clay.  
Build it up with wood and clay, my fair lady.  
Wood and clay will wash away, Wash away, Wash away.  
Wood and clay will wash away, my fair lady.  
Build it up with stone so strong, Stone so strong, Stone so strong.  
Build it up with stone so strong, my fair lady.  
Stone so strong will last so long, last so long, last so long.  
Stone so strong will last so long, my fair lady.

Three Blind Mice

Three blind mice,
See how they run!
They all ran after a farmer's wife,
Who cut off their tails with a carving knife.
Did you ever see such a sight in your life,
As three blind mice?

I'm A Little Teapot

I'm a little teapot, short and stout
Here is my handle [one hand on hip], here is my spout [other arm out straight]
When I get all steamed up, hear me shout
Just tip me over and pour me out!
[As song ends, lean over and tip arm out like a spout]

I'm a clever teapot, yes it's true
Here's an example of what I can do
I can change my handle to my spout [switch arm positions and repeat tipping motion]
Just tip me over and pour me out
